## ABSTRACT

The publication is presented with the purpose of providing educators easy access to current materials relevant to vocational-technical instruction and research. The document cumulates the indexes that appeared in the six bi-monthly issues of Abstracts of Instructional and Research Materials in Vocational and Technical Education (AIM/ARM), Volume 8, numbers 1 through 6. This cumulation is intended to be a companion volume to the individual issues of AIM/ARM, which contain the complete resumes of documents. Two indexes are provided in this volume: subject and author. Both indexes show the title of the document, the VT number, and page of AIM/ARM on which the abstract appears. The alphabetical subject index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The terms conform to those presented in the Thesaurus of ERIC Descriptors. The author index is arranged in alphabetical order by the person's last name and/or the institution's full name. (Author/BP)

\* Documents acquired by ERIC include many informal unpublished \*  
\* materials not available from other sources. ERIC makes every effort \*  
\* to obtain the best copy available. Nevertheless, items of marginal \*  
\* reproducibility are often encountered and this affects the quality \*  
\* of the microfiche and hardcopy reproductions ERIC makes available \*  
\* via the ERIC Document Reproduction Service (EDRS). EDRS is not \*  
\* responsible for the quality of the original document. Reproductions \*  
\* supplied by EDRS are the best that can be made from the original. \*

## PREFACE

Finding and using relevant information frequently is a major task for researchers, curriculum specialists, teachers, administrators, and students. The Center for Vocational Education is dedicated to making useful and vital information accessible so that educators may use it to improve school practice.

The Center assembles, under one cover, information about instructional and research materials relevant to the field of vocational-technical education.

Through abstracts designed to present useful information about materials, the Abstracts of Instructional and Research Materials in Vocational and Technical Education (AIM/ARM) publication provides educators quick access to in-use or under-development instructional and research materials.

We are indebted to our colleagues within the profession for providing us instructional and research materials as they become available. We also appreciate the contributions of instructional materials laboratories, local school systems and professional associations such as the Vocational Instructional Materials (VIM) section of the American Vocational Association. Members of the profession are encouraged to forward to AIM/ARM at The Center instructional and research materials for possible inclusion in future issues of AIM/ARM.

We hope that this publication will prove valuable to you in your particular educational endeavors.

## THESAURUS OF ERIC DESCRIPTORS

The Thesaurus of ERIC Descriptors was developed under the auspices of the Educational Resources Information Center (ERIC). This definitive vocabulary of education has been developed and updated by educators who review the literature in their field. The Thesaurus is the source of all subject headings used for indexing and for retrieval of documents announced in Abstracts of Instructional and Research Materials in Vocational and Technical Education (AIM/ARM), Resources in Education (RIE), and Current Index to Journals in Education (CIJE).

The Thesaurus serves to give all educators an increased awareness of the language of education. It is useful to teachers, students, administrators, or anyone interested in locating information on any educational topic.

Searching for information/documents in the AIM/ARM and ERIC data bases can be done more quickly and with greater accuracy by consulting the latest edition of the Thesaurus for proper search terminology.

The Thesaurus of ERIC Descriptors may be purchased for \$7.95 from:

Macmillan Information  
A Division of Macmillan Publishing Co., Inc.  
866 Third Avenue  
New York, NY 10022
